Okay, I was never fed up when you ignored me each and every time. I didn't expect anything from you. All I need was, you must be serious about my feelings. Cause it was never a joke! I don't want you to become uncomfortable and feel "Eww ee cheokkan!!". So I was being really quiet, and I always will be! 😊 Just keep in mind that I really really really really love you!

Any way, Happiest Bday to the

wishing you a day  
filled with happiness  
and all things that  
makes you smile.

Love from
